OSG USER SCHOOL 2020

July 6–10

Harness the power of distributed computing

• Use High Throughput Computing (HTC) and the Open Science Grid (OSG)
• Learn how to access and use thousands to millions of hours of computing
• Get help handling lots of data (gigabytes, terabytes)
• Learn by doing — lots of hands-on activities
• Taught by faculty & staff who work with distributed computing daily

Ideal for graduate students and support staff (and others!) who use large-scale computing for research:

Physics · Biology · Chemistry · Statistics · Economics
Medicine · Engineering · Language · Psych · More!

More Info + Financial Support + Application (Extended Deadline: April 10):
